EXPERIENCE

Frontend React Developer

Udevs . Tashkent

Sep 2025 – Present

UFinance — Financial Management Platform

Comprehensive Plan-Fact financial dashboard for income, expenses, transfers, accruals, and shipments across multiple accounts and currencies

- Manages counterparties, deals, and chart of accounts with hierarchical structures
- Generates financial reports (Cash Flow, P&L, Balance Sheet) with interactive ECharts / Recharts visualizations
- Provides real-time KPI indicators and supports multi-currency conversion with customizable date ranges
- Built scalable architecture with MobX 6 stores, TanStack Query v5 caching, and SSR-safe localStorage hydration
- Designed reusable component system spanning 15+ feature modules with Next.js 16 App Router and React 19
- Implemented complex financial logic: split payments, account transfers, hierarchical chart of accounts
- Tech: Next.js 16, React 19, MobX 6, TanStack Query v5, MUI 7, TailwindCSS 4, shadcn/ui, ECharts, React Hook Form, Material React Table

Kansler — E-commerce Platform

Multi-language (UZ/RU) e-commerce platform covering full shopping flow — product discovery, cart, checkout, and order management

- Integrated Yandex Maps / Leaflet for saved delivery addresses and user profile management
- Designed feature-based frontend architecture with MobX + TanStack Query state management
- Implemented i18n routing via next-intl and optimized separate layouts for Web and Mobile
- Tech: Next.js 15, React 19, MobX, TanStack Query, Mantine UI, Chakra UI, React Hook Form, SCSS, Swiper

Frontend React/Next Developer

So Hub — Tashkent, Chilonzor

Aug 2025 – Sep 2025

- Designed and implemented responsive user interfaces in close collaboration with backend teams
- Integrated RESTful APIs for seamless frontend-backend communication
- Developed real-time chat functionality using WebSocket for instant messaging
- Implemented secure file upload and sharing features with progress indicators, validation, and error handling
- Delivered production-ready features actively used by customers

Frontend Vue Developer

Freelance — Remote

Jan 2025 – Mar 2025

- Built an employee management system using Vue 3 and Vuex
- Implemented a responsive and efficient UI with Element-UI for optimal user experience.
